

GATEWAY GREENS LANDSCAPE COMMITTEE MEETING
HELD AT THE HOME OF DELORES LINSCOTT

11/16/2009 3:00 P.M.

PRESENT: Ed Snyder, Dave Wadovick, John Kostycz, Kim Gradwell, Brian Mook, Delores Linscott.

Guest: Jerome Gardner

Minutes were approved for the month of Oct.

Chairperson Delores Linscott filled in the committee on last months activities. She also found us a new electrical company to give us a quote on putting power under the streets to the cul de sacs for the valves to the irrigation to be electric instead of using batteries. This company owner lives in Daniels Preserve and contacted Mrs. Linscott for work in Gateway. She thinks we should try for better pricing with this man and also to get two more bids...probable cost for this work is two hundred or less for Jerome to put in the irrigation part after the electric has been put under the roadway with a ground fault receptacle. The cost for the second part may run as high as 700.00 per cul de sac.

Another project is to upgrade some of our poorly landscaped monuments and other areas that have gotten sparse and old. The cost for this will run about 5,000.00. Motion was made by Dave Wadovick and seconded by John Kostyck to spend the 5,000.00 for this project.

Another area of work to be done was at the entrance to Westlinks. Jerome Gardner gave us an estimate for 4050.00 to make this a lovely entrance to our community. Dave Wadovick made the motion to accept this bid and a second was made by John Kostyck..

Delores said the fall flowers would be planted on the 17th and the tree trimming had already been started. Jerome Gardner made the suggestion that we should try to get the fall tree trimming done a little sooner in the year so as not to hold up the mulch being laid, as it is this year it will not be put down until the 1st of Dec.

The whole committee then voted to send all our motions and suggestions to the board of Governors for approval...

Meeting adjourned at 4:00 P.M.
